Sewer Project

The city has been selected to receive a Community Development Block Grant in the amount of \$600,000 to help fund the upcoming sewer project. This amount is in addition to the \$547,000 grant that was offered to the city from USDA Rural Development. This means that almost half of the estimated total project cost has been covered by grants! In the coming weeks there will be crews from BG Consultants coming to town to work on surveying as they begin to draw up the plans for the project. Keep an eye for details in the newsletter and on Facebook as we get further into the project. If at any time you have questions please give the clerk or public works director a call. 620-367-8111 or 620-747-0709.
